AN EXPOSITION OF THE CONSTITUTION OF THE UNITED STATES. By Henry Flanders. Fifth Edition, Revised and Enlarged. Philadelphia: T. & J. W. Johnson & Co. 1904. pp. xii, 326. 16mo.

According to the preface of this work, the purpose was "to supply a convenient manual of instruction to the youth of our country; to make clear and intelligible to the unprofessional reader the fundamental law of our Federative system of government; and at the same time to produce a work which might also be useful to the bar." The author has succeeded in his first two endeavors; the well-arranged, clear-cut, and concise treatment of the provisions of the Constitution commend it to the elementary student of government or to the unprofessional reader as a safe, non-technical, working summary. The fifth edition corrects it to date, and includes some new matter, for example, questions connected with the acquisition of territory from Spain. In furthering these two purposes, however, the author has largely, and perhaps necessarily, sacrificed his third, which was to help the practising lawyer. The summary treatment in the text coupled with the absence of citations of authorities—only some half-dozen cases are cited—make the book of little use to the careful student of constitutional law.
